

Dear Well-wisher,

I am happy to inform all of you that today Ila Trust has completed 19 years.

Ila Trust was founded on October 26th 1994 by Reeta Devi. This clinic was initially staffed with 2 doctors and we had projected 70 patients per visit. And now we are staffed with thirteen doctors including two gynaecologists, five screener and four pharmacists. Last year 2012, we have treated 1,75,108 patients. This is only possible with your moral support and generous donations to continue our work.

We hope you will continue your support and guidance, which will help us in taking care of needy under-privileged people of Delhi.

I myself have no words to express my love and gratitude for the faith and trust you placed on our work....all I can say is God Bless You.

Warm regards,

Reeta Devi
