

Dear Supporters,

On the behalf of Ila Trust, we would like to thank you for your moral support, Trust and generous donations to continue our work.

Thank you for helping us to take care of 1, 68,936 patients in 2015. Your support has played a key role in our success in improving health and quality of most needy people in Delhi.

Improving the health of people means not just providing medicine, but also doing our best to improve our patient's quality of life; Keeping the mobile units as a base and with your belief in Ila Trust, we also perform the following activities.

We have double sites in a day, early in the morning and afternoon. In the morning we go to residential colony so that we can interact with whole family. In the afternoon, we are treating people near their place of work side who often lose out of their earnings by standing in long queues at hospitals, are able to receive treatments in just 15-20 minutes and go to work which allows them to keep themselves healthy while not losing a chance to make a living.

Apart from the medical health care,

1. We also distribute biscuits, blankets, soaps, protein powder, sweaters, shawls, chorine tablets, bread and eggs, toys, condoms as required.
2. Free sanitary pads to protect females from serious health risks and infections.
3. We are creating awareness on hygiene, birth control, child care etc.
4. We are saving average 50-60 limbs per month by free dressing of open wounds on time.
5. We employ screener from weaker section of society.
6. Educational support – We are providing educational support to 3 economically backward children – Priyanka, Ranjan and Muskan.
7. Free Dry ration – We are providing free monthly dry ration to HIV family (both the couples are positive).
8. Free Laboratory tests

Thank you once again for your kindness, generosity, Trust, time and effort that you both put into making the event such a huge success.

Warm Regards,  
Reeta Devi

We ourselves feel that what we are doing is just a drop in the ocean. But if that drop was not in the ocean, I think the ocean would be less because of that missing drop. I do not agree with the big way of doing big things. To us what matters is an individual.

Mother Teresa
